

Principal's Message

You, the Monroe student, have completed your fifty-first year of education at Monroe High School. To some of you it means an entrance into a challenging world; to others it means a step closer to graduation. All of you have benefited from the achievements and improvements made possible by former MHS students. Should 1960-61 be an indication of what is to come in the next forty-nine years, the student of the future may expect a rich heritage. You have made this possible.

In an expression of appreciation to the 1960-61 student body, cooperation, spirit, enthusiasm, and loyalty are key words that continue a tradition and reputation that has been richly deserved. "Orchids" to you all for a fine year. We sincerely hope MHS and the faculty has served you as well as you have served us.

Cliff A. Gillies, Principal

SCHOOL BOARD MEMBERS, Left to right: Thomas Marsden, Andrew Broz, Pres., Leona Lewis, Gordon Keck, Larry Whitfield, Floyd Howell, (not shown) Ken Schilaty.

Superintendent's Message

The task of securing the best education possible from your High School is one that will be met with different degrees of success depending on the society he or she lives in. It is my sincere hope that every one of you will take the fullest advantage of your opportunities so as to enable you to have a more successful and happy life after graduation. Let it not be said, "Why didn't they make me study harder?". The responsibility is yours.

It is important to remember that success come mostly through work that is well directed toward an objective. The future offers many opportunities, but also will demand much greater knowledge for the one who will succeed. Your studies in High School form a foundation that can lead to a worthwhile life that will bring many, many rewards.

As Superintendent and a friend I wish all the best of everything and extend to each of you a cordial invitation to come back to your school for any assistance we can give you.

Thomas Marsden, Superintendent
